**NOTES**

Details may not add to totals due to rounding.

"Exits" represent suspensions and terminations due to death or loss of SSI eligibility. Loss of eligibility can occur if an individual no longer meets the non-medical criteria for eligibility or if an individual no longer meets the Social Security Act's definition of disabled.

Outlays omit administrative costs, which are discretionary and thus subject to appropriation.

Federal SSI statistics omit state supplementation, whether administered by the states or the Social Security Administration.

The maximum monthly benefit, also known as the Federal Benefit Rate (FBR), increases with the automatic cost-of-living adjustment that apply to Social Security benefits. However, because of rounding in the FBR formula, sometimes the effective FBR cost-of-living adjustment differs from the Social Security cost-of-living adjustment.
