

**CONGRESSIONAL BUDGET OFFICE
COST ESTIMATE**

March 6, 2014

**H.R. 3110
Huna Tlingit Traditional Gull Egg Use Act**

*As ordered reported by the House Committee on Natural Resources
on February 27, 2014*

H.R. 3110 would authorize the Hoonah Indian Association to harvest glaucous-winged gull eggs from Glacier Bay National Park in Alaska. Under the legislation, the Association would be permitted to harvest eggs not more than twice a year from up to five locations within the park. The bill would also direct the Department of the Interior to develop an annual harvest plan with the Association.

Based on information provided by the National Park Service, CBO estimates that implementing H.R. 3110 would have no significant impact on the federal budget. Enacting H.R. 3110 would not affect direct spending or revenues; therefore, pay-as-you-go procedures do not apply.

H.R. 3110 contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act and would impose no costs on state, local, or tribal governments.

On May 29, 2013, CBO transmitted a cost estimate for S. 156, the Huna Tlingit Traditional Gull Egg Use Act, as ordered reported by the Senate Committee on Energy and Natural Resources on May 16, 2013. The two bills are similar, and the CBO cost estimates are the same.

The CBO staff contact for this estimate is Martin von Gnechten. The estimate was approved by Theresa Gullo, Deputy Assistant Director for Budget Analysis.
